OBJECTIVE

Self-motivated IT professional with deep knowledge and proficiency in JavaScript, HTML, CSS, and mobile responsive website development, looking for a challenging position as a Front-end Web Developer.

TECHNICAL AND SOFT SKILLS

- Expertise in front end technologies like HTML5, CSS (SASS), JavaScript, Angular, Typescript, jQuery, Bootstrap (3 & 4) etc. to create competing websites and applications.
- Ensured that the website is optimized for various devices to ensure the feasibility.
- Experienced in using version control software like Git, SVN, Microsoft TFS and project management tools like Asana and Jira.
- Worked in an agile development environment which is an iterative approach to planning and guiding project process.
- Created detailed guidelines, standards, and best practices for web and mobile designing projects.
- Collaborated with other developers to ensure that the website is functional and visually appealing.
- Liaise with the client to gauge their needs and expectations in variety of projects and applications.
- Prioritized multiple project features and worked for different projects simultaneously.
- Highly flexible and adaptable, always open to learning and explore new technologies.
